

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Application of:

Katsuya YAMADA et al.

Group Art Unit:

Serial No.:

Examiner:

Filed: March 20, 2001

For: APPARATUS AND METHOD FOR SETTING ENVIRONMENT OF
CLIENT IN CLIENT/SERVER SYSTEM, AND PROGRAM RECORDING
MEDIUM THEREFOR

PRELIMINARY AMENDMENT

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

Prior to calculating the filing fee for and examination of the above-identified application, please amend the claims as follows:

IN THE CLAIMS

Please AMEND the claims in accordance with the following:

6. (AS ONCE AMENDED HEREIN) The apparatus for setting the environment of a client in a client/server system according to claim 1, wherein said server has a unit keeping a log of processing performed on said client.

7. (AS ONCE AMENDED HEREIN) The apparatus for setting the environment of a client in a client/server system according to claim 1, wherein said client periodically sends document data to said server.

10. (AS NEW HEREIN) The apparatus for setting the environment of a client in a client/server system according to claim 2, wherein said server has a unit keeping a log of processing performed on said client.

11. (AS NEW HEREIN) The apparatus for setting the environment of a client in a client/server system according to claim 3, wherein said server has a unit keeping a log of processing performed on said client.

12. (AS NEW HEREIN) The apparatus for setting the environment of a client in a client/server system according to claim 4, wherein said server has a unit keeping a log of processing performed on said client.

13. (AS NEW HEREIN) The apparatus for setting the environment of a client in a client/server system according to claim 5, wherein said server has a unit keeping a log of processing performed on said client.

14. (AS NEW HEREIN) The apparatus for setting the environment of a client in a client/server system according to claim 2, wherein said client periodically sends document data to said server.

15. (AS NEW HEREIN) The apparatus for setting the environment of a client in a client/server system according to claim 3, wherein said client periodically sends document data to said server.

16. (AS NEW HEREIN) The apparatus for setting the environment of a client in a client/server system according to claim 4, wherein said client periodically sends document data to said server.

17. (AS NEW HEREIN) The apparatus for setting the environment of a client in a client/server system according to claim 5, wherein said client periodically sends document data to said server.

18. (AS NEW HEREIN) The apparatus for setting the environment of a client in a client/server system according to claim 6, wherein said client periodically sends document data to said server.

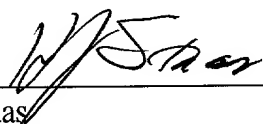

REMARKS

This Preliminary Amendment is submitted to further prosecution of this application by placing same in better form, including eliminating all multiple dependencies from the claims. Accordingly, entry of the Preliminary Amendment and favorable examination are respectfully requested.

Respectfully submitted,

STAAS & HALSEY LLP

VERSION WITH MARKINGS TO SHOW CHANGES MADE

IN THE CLAIMS

6. (ONCE AMENDED) The apparatus for setting the environment of a client in a client/server system according to [one of claims 1 to 5] claim 1, wherein said server has a unit keeping a log of processing performed on said client.

7. (ONCE AMENDED) The apparatus for setting the environment of a client in a client/server system according to [one of claims 1 to 6] claim 1, wherein said client periodically sends document data to said server.

10. (NEW) The apparatus for setting the environment of a client in a client/server system according to claim 2, wherein said server has a unit keeping a log of processing performed on said client.

11. (NEW) The apparatus for setting the environment of a client in a client/server system according to claim 3, wherein said server has a unit keeping a log of processing performed on said client.

12. (NEW) The apparatus for setting the environment of a client in a client/server system according to claim 4, wherein said server has a unit keeping a log of processing performed on said client.

13. (NEW) The apparatus for setting the environment of a client in a client/server system according to claim 5, wherein said server has a unit keeping a log of processing performed on said client.

14. (NEW) The apparatus for setting the environment of a client in a client/server system according to claim 2, wherein said client periodically sends document data to said server.

15. (NEW) The apparatus for setting the environment of a client in a client/server system according to claim 3, wherein said client periodically sends document data to said server.

16. (NEW) The apparatus for setting the environment of a client in a client/server system according to claim 4, wherein said client periodically sends document data to said server.

17. (NEW) The apparatus for setting the environment of a client in a client/server system according to claim 5, wherein said client periodically sends document data to said server.

18. (NEW) The apparatus for setting the environment of a client in a client/server system according to claim 6, wherein said client periodically sends document data to said server.
